MY LOVE LANGUAGE IS...

DIGITAL

Exploring binary views of digital and IRL love through surround sound installation.

BY

Matilda Sutherland

CONCEPT

DIGITAL is,
intangible,
unconventional.

IRL is,
material,
traditional.

Problems associated with this binary include: internalized shame, a secretive society, and wi-de-spread societal disconnect.

PROPOSED OUTCOME

To use multichannel sonic installation and visual prompts surrounding digital and IRL expressions of love to:

explore unique expressions of love,

dissect the digital vs. IRL binary,

and create the possibility of an intertwined existence between the digital and IRL.

A user imbued by inquiry of love,
in the context of the digital and IRL romantic binary.
